MEMORANDUM FOR: AD/DCI/IC

SUBJECT : Murphy Commission

1. The DCI has approved our suggestions for dealing with a security review of the papers the Murphy Commission intends to make public. He requests that you contact Fisher Howe and suggest to him that the Commission forward such documents to us and that we then transmit them to the USIB Security Committee for a security review only--not substantive.

STATINTL

2. If this arrangement is agreeable to Fisher (and we have some indication that it will be), we should notify [] and also be sure that this is put on the USIB agenda so that all Agencies and Departments that may have specific comments can put their oars in. (As you may recall, NSA's General Counsel, [] had some misgivings about the Harris paper.) Otherwise, [] will be expected to handle all the papers--probably a total of six or eight altogether.
